Type designation	Front dimensions (mm)	Protection degree	Range (V)
IRC3E "Serie Naval"	96 x 96	IP 54	100 - 600

Type Approval documentation

L.C.O.E. No. 89116168 dated 18.04.1990

Cetema EMC test report: 51507IEM.004 dated 28.11.1995

Test carried out

Type tests in accordance with IEC 60051, EMC tests & Environmental tests (DNV class guidelines CG-0339) Environmental test specification for electrical, electronic and programmable equipment and systems).

Marking of product

Product marking: SACI, type designation

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval are complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routine Tests (RT) checked (if not available tests according to RT to be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
