Overcurrent Relay, Type RMC2A "Serie Naval".

In (A)	../5
Vaux (V)	100, 110, 230, 400, or 440 V ± 30 % AC
Dimensions:	144 x 144

Type Approval documentation

Part of catalogue "ANALOGUE INSTRUMENTS" page A51

L.C.O.E. No.E840610097 dated 18.07.1984, H.R.M. dated 14.11.1983

Cetema EMC test report: 04667IEM dated 5.03.97

Test carried out

Type tests in accordance with IEC 60051, EMC tests & Environmental tests (DNV-GL class guidelines CG-0339 - Environmental test specification for electrical, electronic and programmable equipment and systems).

Marking of product

SACI, type designation

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval are complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routine Tests (RT) checked (if not available tests according to RT to be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
